Safety Data Sheet

Section 1: Identification

Product identifier

Product Name • NidaGel Vaginal Gel, 0.75%

Product Description • Metronidazole Vaginal Gel is the intravaginal dosage form of the synthetic antibacterial agent, metronidazole, USP at a concentration of 0.75%.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use • Metronidazole Vaginal Gel is indicated in the treatment of bacterial vaginosis (formerly referred to as Haemophilus vaginitis, Gardnerella vaginitis, nonspecific vaginitis, Corynebacterium vaginitis, or anaerobic vaginosis).

Restrictions on use • Refer to the product insert and/or prescribing information for restrictions on use and contraindications.

Details of the supplier of the safety data sheet

Manufacturer • Valeant Pharmaceuticals North America, LLC
Bridgewater, NJ 08807
United States
valeant.com

Telephone (General) • 1-800-321-4576

Emergency telephone number

Manufacturer • 1-800-535-5053 - US - Infotrac
Manufacturer • +1 352-323-3500 - International - Infotrac

This safety data sheet is written to provide health, safety and environmental information for people handling this formulated product in the workplace. It is not intended to provide information relevant to consumer use of the product.

Section 2: Hazard Identification

UN GHS
According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Classification of the substance or mixture

UN GHS • Skin Irritation 2
Skin Sensitization 1B
Eye Irritation 2A
Carcinogenicity 2
Reproductive Toxicity 2

Label elements

UN GHS

WARNING
**Hazard statements**

- Causes serious eye irritation
- Causes skin irritation
- May cause an allergic skin reaction
- Suspected of causing cancer.
- Suspected of damaging fertility or the unborn child.

**Precautionary statements**

- **Prevention**
  - Do not handle until all safety precautions have been read and understood.
  - Wash thoroughly after handling.
  - Use personal protective equipment as required.
  - Use only in accordance with label instructions and supplied prescribing information.

- **Response**
  - IF ON SKIN: Wash with plenty of soap and water.
  - If skin irritation or rash occurs: Get medical advice/attention.
  - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  - If eye irritation persists: Get medical advice/attention.

- **Storage/Disposal**
  - Keep tightly closed. Store at room temperature 15-30°C (59-86°F), to maintain product integrity. Use before expiration date marked on carton and/or container. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

**Other hazards**

- **UN GHS**
  - No data available

---

**Section 3 - Composition/Information on Ingredients**

**Substances**

- Material does not meet the criteria of a substance according to United Nations Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

**Mixtures**

**Section 4: First-Aid Measures**
Description of first aid measures

Inhalation  
- Remove source of exposure. Seek medical attention if irritation or signs of toxicity occur. Provide symptomatic or supportive care as necessary.

Skin  
- Contact with skin can lead to irritation. If skin irritation occurs, discontinue use; remove source of exposure. Flush skin with copious amounts of water. Seek medical attention if irritation persists or signs of toxicity occur. Provide symptomatic or supportive care as necessary.

Eye  
- If eye contact occurs, rinse eyes under gently running water for at least 15 minutes. Use sufficient force to open eyelids and roll eyes while flushing. Seek medical attention if irritation persists or signs of toxicity occur. Provide symptomatic or supportive care as necessary.

Ingestion  
- Remove source of exposure. Seek medical attention if irritation or signs of toxicity occur. Provide symptomatic or supportive care as necessary. If signs/symptoms develop, get medical attention.

Most important symptoms and effects, both acute and delayed  
- No data available

Indication of any immediate medical attention and special treatment needed  
- No data available

Other information  
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Additional details are provided on the product packaging and/or in the product insert.

Section 5: Fire-Fighting Measures

Extinguishing media  

Suitable Extinguishing Media  
- Water spray, carbon dioxide, dry chemical powder or appropriate foam for surrounding fire.

Unsuitable Extinguishing Media  
- No data available

Firefighting Procedures  
- As with all fires, evacuate personnel to safe area. Firefighters should use self-contained breathing equipment and appropriate protective clothing.

Special hazards arising from the substance or mixture  

Unusual Fire and Explosion Hazards  
- No data available

Hazardous Combustion Products  
- During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Advice for firefighters  
- No data available

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures  

Personal Precautions  
- No special controls or personal protection required under conditions of intended use. In the event of bulk spills, wear suitable protective eyewear, clothing, protective boots and protective gloves. Evacuate immediate area. Ensure adequate ventilation. Refer to Section 8.

Emergency Procedures  
- For bulk material spills: Contain spilled product. For small spills, add suitable absorbent material. Scoop up and place in an appropriate liquid-tight container equipped with a tight cover for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate, liquid-tight container equipped with a tight cover for disposal.
Environmental precautions

- **LARGE SPILLS**: Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

**Containment/Clean-up Measures**

- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Prevent runoff from entering drains, sewers, and streams.

Other Information

- In the event of a release of bulk material, the user should determine if the release qualifies as reportable according to local, state, and federal regulations.

Section 7 - Handling and Storage

**Precautions for safe handling**

**Handling**

- No special handling is required. Refer to Section 8. Use only in accordance with product literature. Use of impervious gloves is recommended if there is a potential for skin contact.

**Conditions for safe storage, including any incompatibilities**

**Storage**

- Keep tightly closed. Store at room temperature 15-30°C (59-86°F), to maintain product integrity. Use before expiration date marked on carton and/or container.

Section 8 - Exposure Controls/Personal Protection

**Control parameters**

**Exposure Limits/Guidelines**

- Refer to the occupational exposure limits / guidelines for the individual product components.

**Exposure Limits Supplemental**

ACGIH

*Sodium hydroxide (1310-73-2): TLV Basis - Critical Effects: (eye, skin and upper respiratory tract irritation)*

**Exposure controls**

**Engineering Measures/Controls**

- No special controls are required under conditions of intended use. Local exhaust ventilation should be provided when handling bulk product.

**Personal Protective Equipment**

**Respiratory**

- No special controls or personal protection required under conditions of intended use. In the event of a bulk spill, a NIOSH-certified air-purifying respirator equipped with HEPA-organic vapor cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits and when adequate oxygen is present. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

**Eye/Face**

- No special personal protection required under conditions of intended use. In the event of a bulk spill, appropriate eye/face protection should be worn.

**Hands**

- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear rubber or nitrile gloves.
Skin/Body

- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear appropriate protective clothing.

Environmental Exposure Controls

- No special controls are required under conditions of intended use. In the event of a bulk spill, prevent spilled material from entering storm sewers or drains, waterways, and contact with the soil.

</tbody>
</table>

### Potential Health Effects

#### Inhalation

- **Acute (Immediate)**: May cause irritation.
- **Chronic (Delayed)**: No data available

#### Skin

- **Acute (Immediate)**: Causes skin irritation. May cause skin sensitization. Symptoms include redness, and skin rash.
- **Chronic (Delayed)**: Repeated and prolonged exposure may cause sensitization.

#### Eye

- **Acute (Immediate)**: Causes serious eye irritation.
- **Chronic (Delayed)**: No data available

#### Ingestion

- **Acute (Immediate)**: May cause mild irritation.
- **Chronic (Delayed)**: No data available

#### Carcinogenic Effects

- Metronidazole has shown evidence of carcinogenic activity in a number of studies involving chronic oral administration in mice and rats. These studies have not been conducted with 0.75% metronidazole vaginal gel.
### Carcinogenic Effects

<td>Group 3-Not Classifiable</td>
<td>Not Listed</td>
</tr>
</tbody>
</table>

**Reproductive Effects**
- No fetotoxicity or teratogenicity was observed when metronidazole was administered orally to pregnant mice at six times the recommended human dose (based on mg/m²); however, in a single small study where the drug was administered intraperitoneally, some intrauterine deaths were observed. Because animal reproduction studies are not always predictive of human response, and because metronidazole is a carcinogen in rodents, this drug should be used during pregnancy only if clearly needed.

**Other information**
- Refer to the product insert and/or prescribing information for additional acute and/or chronic health effects.
